

Getting Started

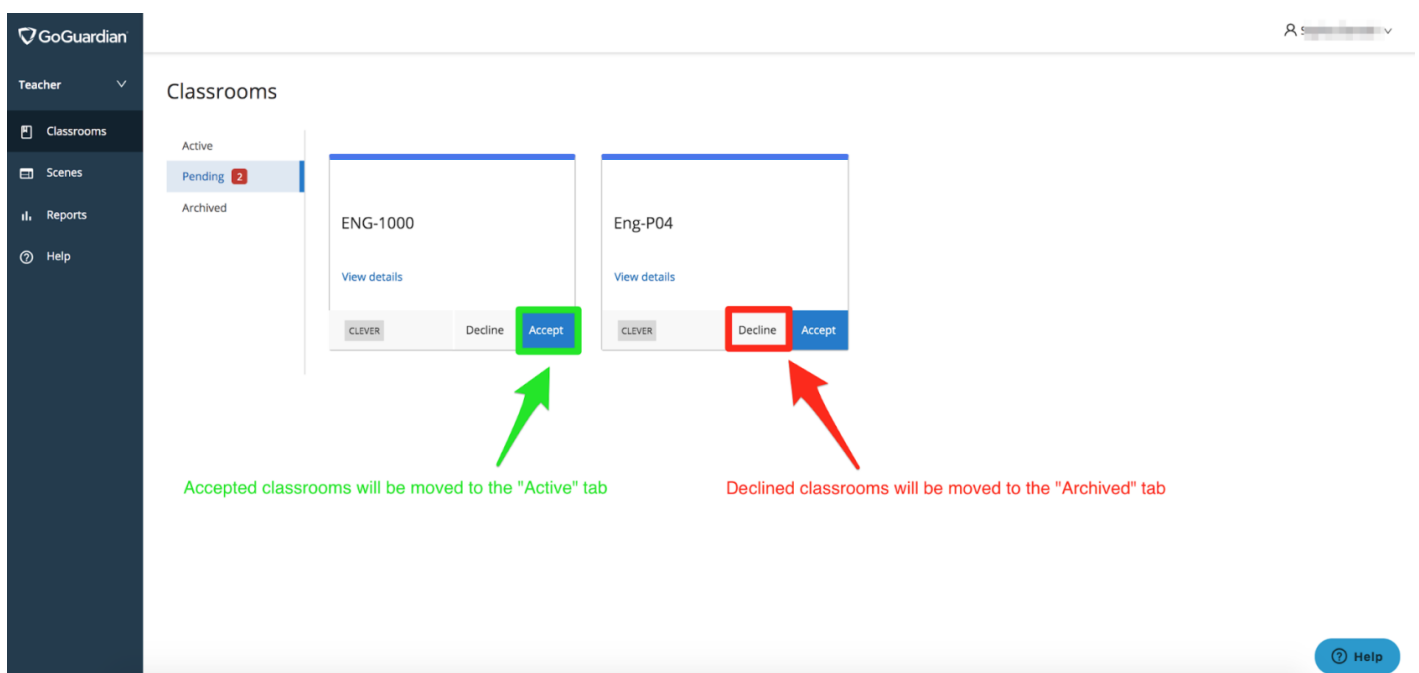

Logging In

Go to teacher.goguardian.com and **Log in with Google**.

Classrooms

GoGuardian is integrated with Clever. Instead of creating your own classrooms, you will see **Pending Classrooms** in the left side of the dashboard. Your rosters are automatically synced so you don't have to add students. Anytime a roster change is made, it will automatically update in GoGuardian as well.

Select "Accept" so that the classroom will be added to the "Active" classrooms. Any fellow Teachers within that classroom will be able to see it in their account as well.

Revision #2
