Viewing Past Sessions

Session data including student browsing history during class, Chat records, Screenshots taken by teachers, Student Check-Ins, and a log of Teacher Commands is automatically saved and can be accessed in the class session history at any time.

To access previous class session data:

1. Navigate to the **Sessions** tab by clicking on the class tile or the "View Sessions" option from the Settings cogwheel menu.
2. Under the **Date, Time, and Running Time** columns, click on the previous class session you'd like to review
3. Select from the **Timelines, Screenshots, Command Log, and Check-Ins** tabs to sort by the respective data
