

Launching Zoom for a Teacher at Home

If you are subbing a class for a teacher at home, follow these steps to launch Zoom.

1. Holly will email you a link for the class Zoom session. When you log in to the classroom computer, open your email.
2. Open the email from Holly and click the Join Zoom Meeting link
3. Once you launch the meeting, set the camera to point at the students by clicking the up arrow on the Stop Video button and choosing the appropriate camera for the student view.

4. Turn on the classroom projector so the students can see the Teacher up on the screen.
5. Done!
